

Meeting Agenda

Date: 2016-04-01

Facilitator: Marcus Pettersson

Participants: Gustav Svensson, Erik Sänne, Martin Sixtensson

1. Objectives. Resolve any issues preventing the team to continue.

- We don't see any major problems yet that will prevent us from continuing.

2. Reports from previous meeting

- Erik and Marcus showed the client/server
- Martin and Gustav had worked on use cases

3. Discussion items

- How the starting screen should look like
- What the server and client will handle

4. Outcomes and assignments

We:

- Wrote down use cases
- Got the server/client to send and receive data

We will:

- Work on startscreen
- Get some basic graphics to work
- Make it possible for more people to connect
- Make the server and client work "correctly"
- Add use cases to RAD and polish them up

5. Wrap up

- Next meeting 2016-04-07
