Meeting Agenda

Date: 2016-05-28
Facilitator: Martin Sixtensson
Participants: Marcus Pettersson, Gustav Svensson, Erik Sänne

1. Objectives. Resolve any issues preventing the team to
- Circle dependencies.

2. Reports from previous meeting
- A store has been implemented. Starts between waves, has a timer. Everything is working smoothly.
- The mapeditor is implemented into the project. Mapeditor still needs some fixes but all major features are done.
- Zombies no longer get stuck in the wall.

3. Discussion items
- Talked about what needs to get done. Some documentation needs a check. Mostly SDD. Otherwise all major features have been implemented. Only needs some small bug fixes and clean up of the code. Some javadoc maybe.
-Talked about circle dependencies. Something that has unfortunately gone undiscovered. Might not be enough time to fix before deadline.

4. Outcomes and assignments
    - Circle dependencies - Everyone
    - Small bugfixes - Everyone
    - Check all documentation - Everyone

5. Wrap up
Next meeting: Never
